PROJECT PORTFOLIO

1. Project Name: Personal Website

- A professional website showcasing skills, projects, and work experience as an Information Systems Manager, built using HTML, CSS, and JavaScript.

2. Project Name: INFO.SYSTEM

- An online platform for managing ISS membership registration and renewals. It provides features such as access to learning materials, event calendars, and merchandise pre-ordering. Built using HTML, CSS, JavaScript, Laravel, and PostgreSQL, it ensures security, usability, and scalability for seamless membership management.

3. Project Name: BloodSync

- A blood donation platform designed to connect donors and recipients efficiently. The platform enables user registration, donor matching, and request tracking, ensuring a streamlined and secure blood donation process.
